

Sustainability Statement

As industry leaders, it is our responsibility and mission to advocate health and safety in the workplace as well as the protection and preservation of our environment.

At D'style Inc., we have an obligation to our clients, the world community, and ourselves to promote responsibility in all policies and practices of our business. We are dedicated to designing products and developing supply chains that reduce our environmental impact and maximize employee safety while maintaining excellent quality.

We are constantly looking to improve our in-house recycling and re-use methods and strive to educate all company personnel on the importance of sustainability practices. We acknowledge the tremendous urgency, and take immediate steps, to minimize carbon emissions, waste stream pollutants, and un-recyclable content from any product platform under our control.

D'style Inc. is also committed to its employees, their well-being and their personal development in industry. We advocate equal employment opportunity and require all of our facilities and vendors to abide by all applicable health and safety standards.

Social responsibility at D'style Inc. is of utmost importance and we pride ourselves on contributing to a more sustainable tomorrow.

**Energy consumption and CO2 emissions have been reduced by 25% since 2012.*
